

International Journal of Information and Electronics Engineering

CONTENTS

Volume 4, Number 6, November 2014

• Image and Signal Processing

Taximeter Design Based on Digital Image Processing Approach.....409
M. J. Assadifard, M. Javanmard, and M. H. Moazzam

Iterative Algorithm for High Resolution Frequency Estimation.....413
Isabel M. P. Duarte, Jos éM. N. Vieira, Paulo J. S. G. Ferreira, and Daniel F. Albuquerque

Fast and Accurate Pupil Isolation Based on Morphology and Active Contour.....418
Mohammed A. M. Abdullah, S. S. Dlay, and W. L. Woo

Detection of Bone Metastases Using FCM and Edge Detection Algorithm.....423
A. Aslantaş, E. Dandil, and M. Çakiroğlu

Analysis of Human Electrocardiogram for Biometric Recognition Using Analytic and AR Modeling Extracted Parameters.....428
B. Vuksanovic and M. Alhamdi

• Electronic Circuit and Control Systems

Modeling and Simulation of a CMOS-Based Analog Function Generator.....434
Madina Hamiane

Design of a Digitally Controlled Inductor-Less Voltage Multiplier for Non-Thermal Food Processing.....438
Kei Eguchi, Shinya Terada, and Ichirou Oota

Prediction of Time Sequence Using a TSK-Type Fuzzy Cerebellar Model Articulation Controller Network..446
Chin-Ling Lee and Cheng-Jian Lin

Current Sliding Mode Control with Gain-Scheduled Parameters for Permanent Magnet Synchronous Machines
.....450
Ningzhi Jin and Xudong Wang

Design of Wideband High Gain and Low Noise Amplifiers.....456
Yinhua Yao and Tongxiu Fan

Numerical Investigation of the Coulter Principle in a Hydrodynamically Focused Microfluidics.....462
Muheng Zhang and Yongsheng Lian

• Networking and Communication

Analysis of Rain Effects on Free Space Optics Based on Data Measured in the Libyan Climate.....469
Mohamed O. Twati, Mahmud M. Badi, Adam F. Adam

Performance Enhancement of AODV Routing Protocol in Wireless Mesh Networks.....473

Tayyeba Minhas, Xu Ning, Satish Anamalamudi, Minglu Jin, and Zahid Minhas Khan

The Comprehensive Performance Rating for Hadoop Clusters on Cloud Computing Platform.....480

Fong-Hao Liu, Ya-Ruei Liou, Hsiang-Fu Lo, Ko-Chin Chang, and Wei-Tsong Lee

On the Secure Outage Performance for Dual-Hop Network Coding Systems with Cooperative Jamming.....485

Hequn Liu, Mingtai He, Yameng Zhou, Tianli Wu, Gaofeng Pan, and Tingting Li

Movement-Type Classification Using Acceleration Sensor.....490

Chu-Hui Lee and Jyun-Han Liou
