

International Journal of Information and Electronics Engineering

CONTENTS

Volume 5, Number 1, January 2015

• Image and Signal Processing

A Comparative Analysis of Feature Sets for Image Classification Using Back Propagation Neural Network.....1
Syed A. Husain and Fouzia S. Akbar

Comparative Study of Negative Aspects Elimination of Medical Image Watermarking Methods.....6
Aleš Roček and Vladim ě Zatloukal

Spatio-Temporal FIR Filter for Fetal ECG Extraction.....10
Marian Kotas, Jakub Błaszczuk, and Tomasz Moroń

New Designs for Friendly Visual Cryptography Scheme.....15
Young-Chang Hou, Zen-Yu Quan, and Hsin-Yin Liao

Visualization of UCG Process Data.....21
Karolina Nurzyńska, Marcin Michalak, and Sebastian Iwaszenko

Traditional Method and Multi-Taper to Feature Extraction Using Mel Frequency Cepstral Coefficients.....27
Jose Trangol and Abel Herrera

A Study on Implementing Physiology-Based Approach and Optical Flow Algorithm to Thermal Screening System for Flu Detection.....31
Norulzahrah M. Zainudin, Suzaimah Ramli, Kamarul H. Ghazali, M. Lazim Talib, and Nor Asiakin Hasbullah

Optimized Stereoscopic 3-D Object Reconstruction.....35
E. Dumont, C. Constantin, A. Esse, A. Gr éaux, and F. Techer

Keyframe Extraction and Shot Boundary Detection Using Eigen Values.....40
Vijeetkumar Benni, R. Dinesh, Punitha P., and Vasudeva Rao

Clustered Compressive Sensing: Application on Medical Imaging.....46
Faraz Barzideh and Solomon A. Tesfamicael

Recognition Impact of JPEG2000 Part 2 Wavelet Packet Subband Structures in IREX K3 Iris Image Compression.....51
Jutta H ämmerle-Uhl, Ernst Tillian, and Andreas Uhl

• Algorithms and Communication

Performance Analysis of LTE Multicast Systems in the Presence of the Colored Noise Jamming.....55
S. Malisuwan, J. Sivaraks, N. Madan, and N. Suriyakrai

An Attempt to Implement the Algorithms for the Real-Time Database Disk Scheduling Applications.....59

S. B. Thorat, Sudhir Jagtap, and Saleem Amdani

• **Electronic Circuits and Embedded Systems**

Equivalent Circuit Modelling for Pulsed Bipolar Plasma Electrolytic Oxidation Process.....63

Azamat R. Fatkullin, Evgeny V. Parfenov, and Aleksey Yerokhin

Verification of Embedded System Designs through Hardware-Software Co-Simulation.....68

Jos é Cláudio V. S. Júnior, Alisson V. Brito, and Tiago P. Nascimento
